Inoxidabilidad del acero para cuchillos y hojas

Conforme a lo dispuesto en la ley N.126 of 10/04/1991 "Normas para la información del consumidor" se informa a los usuarios de hojas y cuchillos sobre el uso correcto del producto, para evitar fenómenos corrosivos.

1. Lavar las hojas inmediatamente después de uso.
2. Utilizar detergentes neutros ó poco alcalinos.
3. Evitar frotar las hojas y cuchillos con:
 - a) productos abrasivos, en particular si contienen cloro
 - b) limpiadores metálicos ó sintéticos.
4. No emplear lejías en el lavado, ni tampoco detergentes que contengan cloro y cloruros libres.
5. Secar inmediatamente después del lavado con paños suaves y absorbentes.
6. El secado en lavajillas no es, en general, suficiente para evitar riesgos de corrosión. Es por tanto necesario realizar un cuidadoso secado a mano inmediatamente después del ciclo de lavado.

Los precauciones descritas son indispensables para evitar daño irreparables en las hojas y los cuchillos.
