THE CATALOGUE

PROFESSIONAL BARWARE
COLLECTION 25/26

Barprofessional offers an excellent range of bar tools designed for the hospitality and beverage industry. There are many opportunities to get more out of your beverage sales. Barprofessional offers an outstanding range of professional tools to make and serve delicious cocktails, coffees, beers, wine, or other beverages.

THE WORLDS NUMBER-ONE

FEMALE BARTENDER

Multiple award-winning professional bartender Tess Posthumus enjoys working with Barprofessional tools. Since 2015 she has been in the top 10 of the International Best Bartender list several times, a list organized by Tales of the Cocktail in New Orleans. Tess travels the world as a freelance hospitality professional and is hired internationally as a consultant, develops signature cocktails, and teaches bartending masterclasses. She knows the importance of quality bar tools and knows how to use them.

Get inspired! Scan the QR code and check out the Barprofessional promo video.

MAKE IT UNIQUE MAKE IT YOURS

Custom imprinted barware, wine buckets, and cocktail tools represent the pinnacle of personalization in the world of beverage service. Elevating the drinking experience beyond the ordinary, these bespoke items add a touch of individuality and brand identity.

BARPROFESSIONAL TRADE SHOW BOOTH

We greatly value personal interaction with our customers. Find our booth annually at a number of international consumer goods trade fairs to see it firsthand! These fairs allow us to strengthen our relationship with our current customers and build relationships with new ones, as well as stay updated on their ever-evolving wishes and needs.

We're always happy to welcome new customers from all over the globe who are yet to acquaint themselves with our extensive range of professional barware. Visit our booth to check out bestsellers on display or to try out the latest additions to our current collection. We look forward to seeing you at upcoming editions!

IMPRESS YOUR CUSTOMERS WITH GREAT CONTENT?

Take advantage of our marketing support

Barprofessional has years of expertise in the hospitality sector, having marketed our own brand of high-quality barware ourselves. While our passion for the beverage industry inspires us to continuously discover the best products and latest innovations, you, our customer, remain the central focus.

Carefully made promotional material. Now at your own use.

Our promotional material, carefully made to highlight the unique features and benefits of our products, is now at your own use. Whether it is product photos, social posts, or informative brochures, our promotional material is designed to help you tell our story and bring our products to the attention of your own customer base.

Feel free to reach out at any time: info@barprofessional.eu

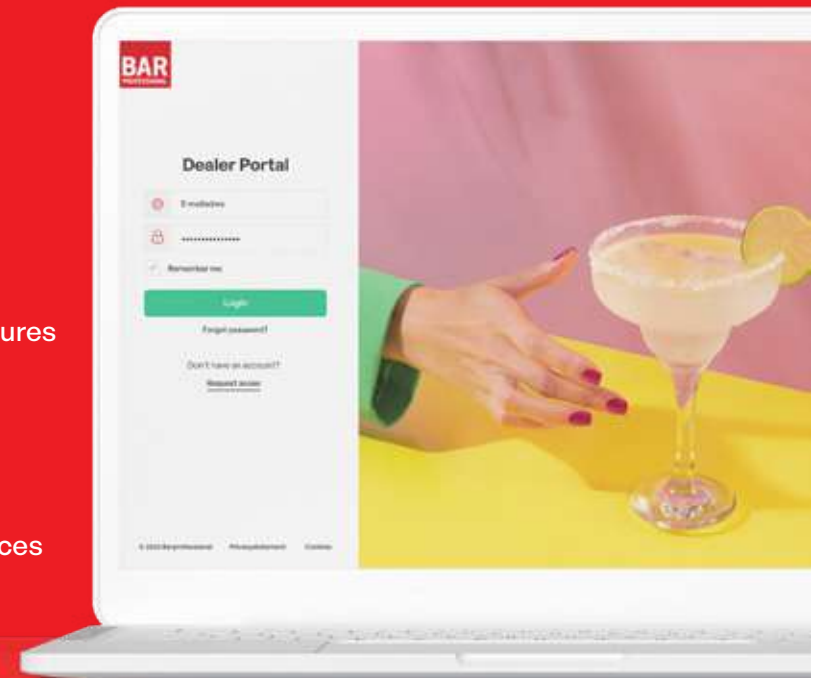

Get more out of your dealership with the Barprofessional Dealer Portal.

The Barprofessional Dealer Portal is the go-to platform for our dealers. Here, you'll find all product information, including specifications, brochures, high-resolution images, and social media content. Specifically designed to support dealers with the right tools and resources, enabling them to serve customers optimally. Fast, easy, and always up to date: everything at your fingertips.

- ✓ Access all product details, including specifications and brochures
- ✓ Download professional-quality images
- ✓ Ready-to-use content tailored for social media platforms
- ✓ Easily request personalized quotes for your specific needs
- ✓ Designed to empower dealers with essential tools and resources

Bar & cocktail tools

**BARTENDERS
ARE ONLY AS
GOOD AS
THEIR TOOLS**

Of course, you'll want only the very best bar tools to shake and serve those delicious mixed drinks and cocktails. You can rely on our extensive experience to guide you.

Whether you're in need of cocktail shakers, bar spoons, or strainers... Barprofessional offers a well-balanced range of cocktail tools. You'll also find an extensive range of barware, such as muddlers, jiggers, and lime squeezers. Get ready and start shaking the best mojitos, cosmopolitans and other signature cocktails served and celebrated worldwide.

We have joined forces with 'Bartender of the Year' Tess Posthumus. This Barprofessional ambassador is here to share her knowledge and skills. So whatever it is you need, we've got absolute expertise at our fingertips!

PREMIUM TOOLS FOR THE DEMANDING BARTENDER

The craft cocktail has made its comeback. To honor their revival, Barprofessional presents The Premium Speakeasy Collection, a series of high-quality cocktail tools. Superior materials, timeless designs, and sleek functionality evoke the Roaring 20s. Referencing the illegal “speakeasy” bars of the Prohibition Era in the USA and the emergence of classic cocktail recipes during that era, these tools are designed for bartenders with the highest standards.

MAORI

COLLECTION

Cocktail tools adorned with Maori symbols are more than just bar tools; they become a vessel that weaves together the art of mixology with the rich cultural heritage of the Maori people. Embracing traditional symbols on a contemporary item like a Boston shaker, is a celebration of cultural fusion and storytelling.

DO THE SWIZZLE

SWIZZLE STICK

by Tess Posthumus

In the hands of a skilled bartender, the swizzle stick transforms the act of mixing into a performance, turning a simple stirring motion into a dance of flavors. It's a reminder that even the smallest tools play a significant role in the alchemy of mixology, where precision and style converge to create liquid masterpieces.

Crafting perfection with every stamp **NEW**

The disc stirrer is essentially a stirrer or muddler designed to lightly 'stamp' or press garnishes, such as citrus slices, herbs, or berries, into your drink. The goal of using a disc stirrer is to gently release the flavors and aromas of these garnishes into the drink without overly crushing or damaging them, ensuring a balanced infusion.

The do's and don'ts of glass care

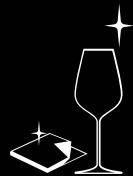

Synergy Sake
40cl
GLSSS40

If glass is **compatible with the dishwasher**, use a glass program.

Do not turn the base and the parison in the opposite direction.

For **more shine**, wipe the glass with a micro-fiber cloth.

Impregnate a cloth with a few **drops of white vinegar** to restore the natural shine of the glass.

We recommend **manual washing in hot water**, without detergent.

RETHINK GLASS, GO REUSABLE

REUSABLE PLASTIC GLASSES

SAN is a rigid, transparent material but it is less impact-resistant and less chemically resistant than Tritan.

SAN will last for 500 dishwasher cycles at 90°C

Tritan is more impact-resistant, chemically resistant, BPA-free, and offers excellent clarity.

Tritan will last for 500 dishwasher cycles at 90°C

PP (Polypropylene) is lightweight and opaque. It is affordable, impact-resistant, chemically resistant, and heat-resistant.

PP will last for 500 dishwasher cycles at 110°C

LET'S BE CLEAR ABOUT GLASS

Lead-free crystal glass

Lead-free crystal glass has gained popularity in mixology due to its aesthetic appeal, durability, and safety benefits.

Crystal glass traditionally contained lead oxide to enhance clarity, brilliance, and weight. However, due to health concerns associated with lead, modern glassmakers developed lead-free alternatives. Lead-free crystal uses other materials like zinc oxide, magnesium oxide, or titanium dioxide to achieve similar properties without the risks associated with lead.

Lead-free crystal glassware is an excellent investment for mixology enthusiasts and professionals, combining safety, elegance, and functionality.

Soda-lime glass

Soda-lime glass is another popular material for mixology glassware. While it may not have the luxurious appeal of lead-free crystal, it has its own set of characteristics that make it a practical and widely used option in bars and cocktail environments.

Soda-lime glass is the most common type of glass, made from a combination of sodium oxide (soda), calcium oxide (lime), and silica (sand).

Soda-lime glass is the backbone of the mixology world due to its affordability, durability, and practicality. While it may not offer the same luxury as crystal, it remains a reliable choice for both home and professional bar setups.

Borosilicate glass

Borosilicate glass is a highly versatile and durable material used in mixology for its unique properties. It is favored for specialty glassware and tools that need to withstand a range of temperatures and conditions. Below is an overview of its characteristics and applications in mixology. Borosilicate glass is a type of glass made with silica and boron trioxide as the main glass-forming constituents. It is known for its superior thermal and chemical resistance.

Borosilicate glass is an excellent choice for mixology due to its durability, aesthetic appeal, and ability to handle a variety of challenging applications.

When it comes to the perfect pour that does your beer justice, we're not just shooting for clean... we want **beer clean!**

5 TIPS TO MAKE YOUR GLASSES SHINE AGAIN

1 Wash beer glasses by hand

Avoid cleaning beer glasses in the dishwasher; instead, wash them by hand. Dishwashers can leave greasy residue and lime deposits on the glasses, creating a cloudy film that, unfortunately, cannot be removed. For handwashing, use warm water, baking soda, and a clean brush. Scrub away all the grime and then rinse the glass with cold water. Finally, let the glass air dry.

3 Air-dry beer glasses

Beer glasses are often used to serve other drinks, especially during busy times when certain glasses run out. However, this is not ideal because beverages like fruit juice or milk can leave behind greasy residue that is difficult to remove from the beer glass.

5 Store beer glasses in a closed cabinet

You'll naturally want to keep your clean beer glasses spotless. Store them in a closed cabinet, away from the kitchen, to prevent dust, grease, or other impurities from settling on them. Glasses can be stored either upside down or upright. However, be mindful that glasses stored upside down for an extended period may absorb odors from the storage area.

2 Rinse glasses for pilsner before use

After cleaning beer glasses, polish them with a clean cloth or let them air dry. You can use a dish rack for this. Avoid drying glasses on a towel or the countertop, as this can cause unpleasant odors—exactly what you don't want when enjoying a beer. Make sure there's enough space around the glasses in the dish rack to allow proper airflow.

4 Pour only beer into beer glasses

Before pouring pilsner into a glass, rinse it with cold water and shake out the excess. This creates a thin water film on the glass, ensuring a perfect foam head. For specialty beers, the rule is different: rinse the glass with cold water first, then dry it with a clean polishing cloth or tea towel.

THE **ECO-FRIENDLY** WINE-SERVING EXPERIENCE

This novelty in wine bowls is made of a totally innovative construction material, PET. As is known, this thermoplastic resin is 100% recyclable, it does not lose its fundamental properties during the recovery process and, like RPET, it can be repeatedly transformed to create many other new products. All always recyclable, for a more harmonious relationship between man and nature.

zzysh®

ENJOY BY THE GLASS, SAVE THE BOTTLE

Unlike conventional wine bottle stoppers or vacuum pumps, the revolutionary Zzysh® Wine Preservation System is designed to preserve your wine's natural flavor and quality for weeks after opening the bottle. Thanks to this innovative Swiss technology, the air in the bottle is replaced by 100% food-grade argon gas to protect the wine from oxidizing or losing its flavor. Whether you're a fan of red wine, white wine, or rosé wine: now you can enjoy your favorite wine by the glass without having to finish the bottle within a day or two. This wine preserver, made of high-quality materials, is tried and tested and is highly recommended by wine experts around the globe.

Here's why everyone needs the Zzysh®

Highly effective wine preserver that prevents your wine from oxidizing.

Preserves natural flavor and quality for weeks.

Replaces the air in an opened bottle with 100% food-grade argon gas.

Innovative Swiss design using high-quality materials that make it extremely easy to use.

Coffee & barista tools

THE PERFECT CUP OF COFFEE

Great coffee tools make for a great cup of coffee. And don't we all love a delicious cup of coffee? The perfect milk frothing jug, a good tamper.... Who could possibly run a decent coffee place without those? That is why baristas and other professionals in the hospitality industry swear by our coffee tools and barware. Whether you're looking for the right tools to create latte art or need to clean your espresso machine: thanks to our extensive experience and expertise, we know what you and other professionals in the hospitality industry require.

Start serving the best cappuccinos, latte macchiatos, or doppio espressos with these high-quality Barprofessional coffee tools.
